RE: EPA ID # A70503301213

Dear Mr. Hafer:

A hazardous waste inspection pertaining only to ground-water monitoring was recently conducted at your facility. During the course of this inspection, information was gathered by an EPA-authorized contractor in accordance with Section 3007 of the Resource Conservation & Recovery Act (RCRA). A copy of the inspection report is enclosed.

EPA recently awarded RCRA Phase I authorization to the State of Arizona, which now operates this part of the hazardous waste program in lieu of the federal program. I have forwarded a copy of the enclosed inspection report to the Bureau of Waste Control, within the Arizona Department of Health Services, which administers the standards for generators, transporters, and hazardous waste facilities.

Please direct any questions, correspondence, and claims of confidentiality to Mr. Bill Williams, at (602)255-1160. Questions or comments regarding this project or the contractor's performance may also be directed to me, at (415)974-8126. Thank you for your cooperation.

Sincerely yours,

Alexis I. Strauss
